Your Best Work is Right Around the Bend

HARDSCAPER’S CHOICE™ PAVER EDGING is engineered to provide lasting support and stability while securing concrete pavers or bricks in patios, walkways or driveways. Mix and match coiled and straight pieces to tackle even the most complex projects quickly, saving you time and money:

- **8’ RIGID SNIP-TO-FLEX PIECES** are ideal for straight paver installations, or the spines can be cut to form gently curved designs. SKU 179-3295 (A)

- **20’ COILED PAVER EDGING** is ready to use for circular and more aggressively curved paver projects, with no spines to clip. SKU 179-3296 (B)

- **ANCHORING SPIKES** can be used with either rigid or coiled edging products and are available separately. SKU 179-3305 (C)

Proudly made in the USA from recycled materials, Hardscaper’s Choice paver restraint is commercial grade, so you get the same level of hardscape support as the pros.
DENVER BEVELED

Denver blocks feature a rear lip system for quick installation with no mortar or pins, and a hollow core design for core filling. Perfect for large retaining wall projects.

CAP BLOCKS
Sienna XL Cap with Sienna Tumbled Catalina.
12" CAP

These caps are reversible, with a split-faced front and back. The angled cut on the sides make capping straight walls or curves a breeze.

USES: capping small retaining wall blocks

WEIGHT: Approx. 13 lbs

AVAILABLE COLORS:

- Autumn Blend 179-4093
- Cobalt 179-4089
- Gray 179-3493
- Quarry Gray 179-3503
- Red 179-4082
- Red/Black 179-3497
- Sienna 179-4088
- Tan 179-3499
- True Definition - Silver Mist 179-4098

DIMENSIONS:

Our Guarantee

Midwest Manufacturing is dedicated to offering the highest quality concrete products to all of our guests. All of our interlocking concrete pavers, retaining wall blocks, and masonry blocks meet or exceed ASTM C-936, ASTM C1634-09/C55-09, ASTM C-1372, and ASTM C-90 specifications, respectively. Midwest Manufacturing guarantees its concrete products against manufacturing defects for as long as you own your home. This guarantee will be honored with proof of purchase. Midwest Manufacturing takes pride in offering our products to the professional installer and “do-it-yourself-er”.

We do not require professional installation, however we do recommend it. Basic installation practices, available at www.midwestmanufacturing.com, must be followed. Midwest Manufacturing’s obligation is limited to replacement of the defective product only. Midwest Manufacturing will not be responsible for lost time, replacement labor, or any other commensurate costs associated with replacement. The guarantee does not apply to product damage caused by impact, improper installation, excessive load, or salt application. Color matching can not be guaranteed. Efflorescence is a natural and temporary occurrence – Midwest Manufacturing cannot be held responsible.

Please Note

• Not all blocks are stocked in all locations.
• All block sizes given are actual; sizes may vary within a given tolerance.
• Some items are only available special order.
• Every effort has been made to ensure accuracy in the color representations found in this literature. However, due to the natural characteristics of concrete, actual colors may vary slightly. We recommend viewing the actual product while making your decisions.
• It is recommended that you purchase enough material to complete your entire project. Color will vary slightly from lot to lot, so materials purchased at a later date may not be a perfect color match.
• Hazy white or chalky looking surfaces are due to efflorescence. Efflorescence is a natural process which can occur as concrete cures. Efflorescence is temporary and not considered a manufacturing defect.
